AKSHAY BHATIA

E-mail:akshaybhatia96.ab@gmail.com   **Mobile:7011395613**

Linkdln profile: https://www.linkedin.com/in/akshay-bhatia-b32326113

Github profile: akshaybhatia96 (github.com)

Profile: Data Analyst

Achivements:
 Data science pro degree imarticus pvt. Ltd.
 Data science with machine learning kvch ibm.
 Data analysis with python ibm
 Solo learn data science with python

Experience:
1.Imarticus learning pvt.ltd(gurgaon) 9 months experience in data science
2. Sparks foundation pvt.ltd 1 months internship in business analyst
3. Kvch ibm pvt. Ltd. 6 months internship in data science with machine learning

Skills:

Data analysis:

Programming language:
1.python(basics,pandas,numpy,matplotlib,seaborn,plotly)
2.Sql server 2019

Visualization tools:
POWER BI
Excel charts
Python(seaborn,matplotlib,plotly)

Machine learning

Supervised learning:
Regression: linear regression
Classification: random forest ensemble,logistic regression,descision tree

Unsupervised learning

K-means cludtering

Functional Responsibilities

- Involved in data analysis,data preprocessing techniques, data cleaning techniques, feature engineering for making the machine learning models .
- Owned and executed end to end data science projects
- Translate product requirements into analytical requirements
- Involved in creating various regression and classification technique by using sklearn libraries such as logistic regression,linear regression,random forest ensembling technique,descision tree

Education

Degree/Course	Institute/College	University/Board	Percentage/board	Year of passing
MCA	Dav Institute of Management	Maharishi Dayanand University	65%	2020
BCA	Dav Centenary College	Maharishi Dayanand University	58%	2017
12TH	Vidya mandir public school	CBSE	67%	2014

PROJECTS

Loan approval lending project:
 client: imarticus learning pvt. Ltd. **Role:** data analyst(business problem,data preprocessing(python),report power bi)
Working: loan distributed to the customer,business understanding,EDA segmentation,data cleaning

Auto ML product:
 client: proton ml pvt. Ltd. **Role:** data analyst(business problem,data preprocessing(python))
Working: business understanding,EDA segmentation,data cleaning

Telecom segmentation project
 client: imarticus learning pvt. Ltd. . **Role:** data analyst(business problem,data preprocessing(python))
Working: churning of customers,business understanding,EDA segmentation,data cleaning
